MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That in the opinion of this House the government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

18. *Mr. Wrye*—Resolution—That, in recognition of the importance of the automotive industry to the economies of Ontario and Canada, of the vital necessity of preserving the more than 100,000 jobs in the national industry, and of the pressing need to realize the 40,000 direct and 90,000 indirect jobs which could be created by adopting a new automotive trade policy, this House endorses the recommendations of the Report of the Federal Task Force on the Canadian Motor Vehicle and Automotive Parts Industries, and urges the Parliament of Canada and the Legislative Assemblies of the other provinces to do likewise. And, further, that, this House recommends that the Government of Ontario, as an indication of its willingness to share the costs as well as the benefits of a restructured industry, should institute an Automotive Industry Assistance Program to be administered by the Ontario Development Corporation, with the aim of providing low-cost capital to Ontario companies in this sector.
19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
20. *Mr. Cunningham*—Resolution—That, in the opinion of this House, the Government of Ontario, should limit and control the growth of Crown Corporations and subsidiaries in the Province of Ontario and make them accountable to the Legislature for the Province of Ontario. And that all Ontario government Agencies, Boards, Commissions, Corporations and their Subsidiaries should come under the direct control of the Legislature of Ontario. And that no new Crown Corporation or Subsidiary or joint venture involving the expenditure of tax dollars should occur without the approval of the Ontario Legislature. And that every Board, Agency, Commission, Crown Corporation or Subsidiary should be subjected to the auditing provisions contained in the Audit Act of Ontario. And further that all detailed financial transac-

tions and budgetary matters of the aforementioned should be included in the budget of Ontario and the Manual of Administration for the Province of Ontario should apply to all of the aforementioned.

21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
26. *Mr. Gordon*—Resolution—That, the demographic trend being towards an aging society, and the future economic and social well-being of our province depending on a vigorous, productive and healthy elderly population, this House support an all-party Committee to seek ways of developing, in co-operation with the Seniors Secretariat and other agencies, a long-term strategy aimed at minimizing the dependency and maximizing the productivity of our future senior citizens.

27. *Mr. Piché*—Resolution—That, in view of the importance of efficient systems and networks for travel and goods transportation for the quality of life and economic development of Northern Ontario, especially for the Far North, this House urges the Government of Ontario to establish and maintain an Office of the Commissioner for Northern Transportation. The Commissioner would be directly responsible to Cabinet and would, (a) co-ordinate and facilitate the development of policies for improved travel and goods transportation in Northern Ontario; (b) make recommendations to Cabinet, the Minister of Transportation and Communications and the Minister of Northern Affairs for the improvement of facilities for travel and goods transportation in Northern Ontario; and (c) assist and advise individuals, corporations, Indian bands and municipalities that experience difficulties with or seek improvements in travel and goods transportation in Northern Ontario.
28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

18. *Mr. Wrye*—Resolution—That, in recognition of the importance of the automotive industry to the economies of Ontario and Canada, of the vital necessity of preserving the more than 100,000 jobs in the national industry, and of the pressing need to realize the 40,000 direct and 90,000 indirect jobs which could be created by adopting a new automotive trade policy, this House endorses the recommendations of the Report of the Federal Task Force on the Canadian Motor Vehicle and Automotive Parts Industries, and urges the Parliament of Canada and the Legislative Assemblies of the other provinces to do likewise. And, further, that, this House recommends that the Government of Ontario, as an indication of its willingness to share the costs as well as the benefits of a restructured industry, should institute an Automotive Industry Assistance Program to be administered by the Ontario Development Corporation, with the aim of providing low-cost capital to Ontario companies in this sector.
19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
20. *Mr. Cunningham*—Resolution—That, in the opinion of this House, the Government of Ontario, should limit and control the growth of Crown Corporations and subsidiaries in the Province of Ontario and make them accountable to the Legislature for the Province of Ontario. And that all Ontario government Agencies, Boards, Commissions, Corporations and their Subsidiaries should come under the direct control of the Legislature of Ontario. And that no new Crown Corporation or Subsidiary or joint venture involving the expenditure of tax dollars should occur without the approval of the Ontario Legislature. And that every Board, Agency, Commission, Crown Corporation or Subsidiary should be subjected to the auditing provisions contained in the Audit Act of Ontario. And further that all detailed financial transac-

tions and budgetary matters of the aforementioned should be included in the budget of Ontario and the Manual of Administration for the Province of Ontario should apply to all of the aforementioned.

21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
26. *Mr. Gordon*—Resolution—That, the demographic trend being towards an aging society, and the future economic and social well-being of our province depending on a vigorous, productive and healthy elderly population, this House support an all-party Committee to seek ways of developing, in co-operation with the Seniors Secretariat and other agencies, a long-term strategy aimed at minimizing the dependency and maximizing the productivity of our future senior citizens.

27. *Mr. Piché*—Resolution—That, in view of the importance of efficient systems and networks for travel and goods transportation for the quality of life and economic development of Northern Ontario, especially for the Far North, this House urges the Government of Ontario to establish and maintain an Office of the Commissioner for Northern Transportation. The Commissioner would be directly responsible to Cabinet and would, (a) co-ordinate and facilitate the development of policies for improved travel and goods transportation in Northern Ontario; (b) make recommendations to Cabinet, the Minister of Transportation and Communications and the Minister of Northern Affairs for the improvement of facilities for travel and goods transportation in Northern Ontario; and (c) assist and advise individuals, corporations, Indian bands and municipalities that experience difficulties with or seek improvements in travel and goods transportation in Northern Ontario.
28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

- (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

- (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

- (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

18. *Debated November 3rd, 1983.*

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

20. *Debated November 3rd, 1983.*

21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.

22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.

23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.

24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
 25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 26. *Mr. Gordon*—Resolution—That, the demographic trend being towards an aging society, and the future economic and social well-being of our province depending on a vigorous, productive and healthy elderly population, this House support an all-party Committee to seek ways of developing, in co-operation with the Seniors Secretariat and other agencies, a long-term strategy aimed at minimizing the dependency and maximizing the productivity of our future senior citizens.
 27. *Mr. Piché*—Resolution—That, in view of the importance of efficient systems and networks for travel and goods transportation for the quality of life and economic development of Northern Ontario, especially for the Far North, this House urges the Government of Ontario to establish and maintain an Office of the Commissioner for Northern Transportation. The Commissioner would be directly responsible to Cabinet and would, (a) co-ordinate and facilitate the development of policies for improved travel and goods transportation in Northern Ontario; (b) make recommendations to Cabinet, the Minister of Transportation and Communications and the Minister of Northern Affairs for the improvement of facilities for travel and goods transportation in Northern Ontario; and (c) assist and advise individuals, corporations, Indian bands and municipalities that experience difficulties with or seek improvements in travel and goods transportation in Northern Ontario.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

- (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

- (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

- (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proc-

lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

modifié

3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

tions
entre les
administrés
et les
institutions
de l'Ontario

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 26. *Mr. Gordon*—Resolution—That, the demographic trend being towards an aging society, and the future economic and social well-being of our province depending on a vigorous, productive and healthy elderly population, this House support an all-party Committee to seek ways of developing, in co-operation with the Seniors Secretariat and other agencies, a long-term strategy aimed at minimizing the dependency and maximizing the productivity of our future senior citizens.
 27. *Mr. Piché*—Resolution—That, in view of the importance of efficient systems and networks for travel and goods transportation for the quality of life and economic development of Northern Ontario, especially for the Far North, this House urges the Government of Ontario to establish and maintain an Office of the Commissioner for Northern Transportation. The Commissioner would be directly responsible to Cabinet and would, (a) co-ordinate and facilitate the development of policies for improved travel and goods transportation in Northern Ontario; (b) make recommendations to Cabinet, the Minister of Transportation and Communications and the Minister of Northern Affairs for the improvement of facilities for travel and goods transportation in Northern Ontario; and (c) assist and advise individuals, corporations, Indian bands and municipalities that experience difficulties with or seek improvements in travel and goods transportation in Northern Ontario.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.
2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.
5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

- (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

- (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

- (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

M. lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

 26. *Mr. Gordon*—Resolution—That, the demographic trend being towards an aging society, and the future economic and social well-being of our province depending on a vigorous, productive and healthy elderly population, this House support an all-party Committee to seek ways of developing, in co-operation with the Seniors Secretariat and other agencies, a long-term strategy aimed at minimizing the dependency and maximizing the productivity of our future senior citizens.

 27. *Mr. Piché*—Resolution—That, in view of the importance of efficient systems and networks for travel and goods transportation for the quality of life and economic development of Northern Ontario, especially for the Far North, this House urges the Government of Ontario to establish and maintain an Office of the Commissioner for Northern Transportation. The Commissioner would be directly responsible to Cabinet and would, (a) co-ordinate and facilitate the development of policies for improved travel and goods transportation in Northern Ontario; (b) make recommendations to Cabinet, the Minister of Transportation and Communications and the Minister of Northern Affairs for the improvement of facilities for travel and goods transportation in Northern Ontario; and (c) assist and advise individuals, corporations, Indian bands and municipalities that experience difficulties with or seek improvements in travel and goods transportation in Northern Ontario.

 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.

QUESTIONS

(Questions are to appear on the day after they are tabled and on every subsequent day in the week they are tabled and then subsequently only on each Monday until an Answer (other than an Interim Answer) is tabled. A question tabled on a Friday will appear on each day of the following week.)

354. *Mr. Foulds*—Enquiry of the Ministry—Would the Minister estimate the loss of revenue for the fiscal year 1983/84 caused by the broadening of the tax exemption for machinery and equipment purchased by manufacturers and producers in order to parallel the exemption for production machinery and equipment under the Excise Tax Act (Canada). Would the Minister indicate the amount, kind and source of machinery that was purchased this year by manufacturers and producers as a direct or indirect result of the tax exemption. Would the Minister estimate the number of jobs created in (a) Ontario; and (b) Canada because of this tax exemption. *November 4th, 1983.*
355. *Mr. Foulds*—Enquiry of the Ministry—Would the Minister indicate how many Boards of Education have declared November 11th, 1983 as a professional development day this year. Is this contrary to the Minister's new policy regarding November 11th. *November 8th, 1983.*

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proc-

lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

Article 20
modifié

3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

tions
entre les
administrés

de l'Ontario

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

a) l'emploi du français ou de l'anglais fait l'objet d'une demande importante;

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 26. *Mr. Gordon*—Resolution—That, the demographic trend being towards an aging society, and the future economic and social well-being of our province depending on a vigorous, productive and healthy elderly population, this House support an all-party Committee to seek ways of developing, in co-operation with the Seniors Secretariat and other agencies, a long-term strategy aimed at minimizing the dependency and maximizing the productivity of our future senior citizens.
 27. *Mr. Piché*—Resolution—That, in view of the importance of efficient systems and networks for travel and goods transportation for the quality of life and economic development of Northern Ontario, especially for the Far North, this House urges the Government of Ontario to establish and maintain an Office of the Commissioner for Northern Transportation. The Commissioner would be directly responsible to Cabinet and would, (a) co-ordinate and facilitate the development of policies for improved travel and goods transportation in Northern Ontario; (b) make recommendations to Cabinet, the Minister of Transportation and Communications and the Minister of Northern Affairs for the improvement of facilities for travel and goods transportation in Northern Ontario; and (c) assist and advise individuals, corporations, Indian bands and municipalities that experience difficulties with or seek improvements in travel and goods transportation in Northern Ontario.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

- (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

- (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

- (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

- (a) there is a significant demand for communication with and services from the office in such language; or

- (b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation

4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proc-

lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

Article 20
modifié

3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Communica-
tions
entre les
administrés
et les
institutions
de l'Ontario

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

a) l'emploi du français ou de l'anglais fait l'objet d'une demande importante;

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston (Scarborough West)*—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proc-

lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

Article 20
modifié

3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

tions
entre les
administrés
et les
institutions
de l'Ontario

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

a) l'emploi du français ou de l'anglais fait l'objet d'une demande importante;

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proc-

lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

Article 20
modifié

3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

tions

administrés

institutions
de l'Ontario

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

- (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

- (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

- (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation

4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proc-

lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

Article 20
modifié

3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Communica-
tions
entre les
administrés
et les
institutions
de l'Ontario

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

a) l'emploi du français ou de l'anglais fait l'objet d'une demande importante;

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy—Resolution*—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

- (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

- (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

- (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

- (a) there is a significant demand for communication with and services from the office in such language; or

- (b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proc-

lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

tions

de l'Ontario

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended

1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature

- (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended

2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts

- (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended

3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions

- (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

M. Roy—Résolution—Etant donné que l'article 43 de la *Loi constitutionnelle de 1982* prévoit que certaines modifications relatives à la Constitution du Canada, et qui ne visent que l'Ontario, peuvent être apportées par proclamation par le Gouverneur général sous le grand sceau du Canada, après autorisation par résolution du Sénat, de la Chambre des communes et de l'Assemblée législative de l'Ontario, la Chambre autorise par la présente la modification de la *Charte canadienne des droits et libertés* par voie de proc-

lamation du Gouverneur général sous le grand sceau du Canada, de la façon ci-après:

Article 17
modifié

1. L'article 17 de la *Charte canadienne des droits et libertés* est modifié par l'adjonction du paragraphe suivant:

(3) Chacun a le droit d'employer le français ou l'anglais dans les débats et travaux de la Législature de l'Ontario.

Article 19
modifié

2. L'article 19 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Travaux de la
Législature
de l'Ontario

(3) Chacun a le droit d'employer le français ou l'anglais dans toutes les affaires dont sont saisis les tribunaux de l'Ontario qui sont désignés bilingues par le lieutenant-gouverneur de l'Ontario et dans tous les actes de procédure qui en découlent.

modifié

3. L'article 20 de ladite charte est modifié par l'adjonction du paragraphe suivant:

Communica-
tions
entre les
administrés
et les
institutions
de l'Ontario

(3) Le public a, en Ontario, droit à l'emploi du français ou de l'anglais pour communiquer avec tout bureau des institutions de la législature ou du gouvernement ou pour en recevoir des services là où, selon le cas:

b) l'emploi du français et de l'anglais se justifie par la vocation du bureau.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
 31. *Mr. Cousens*—Resolution—That, in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
 32. *Mr. Conway*—Resolution—That, in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counseling.

Ballot Item No. 5

Mr. Conway—Resolution—That, in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or

17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling. *To be debated on Thursday, December 8th, 1983.*

NOTICES

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

1. *Mr. Allen*—Resolution—That, in the opinion of this House, the Province of Ontario, Canada, should declare itself a Nuclear Arms Free Zone, and the Government should prohibit the deployment of nuclear weapons in Ontario, the testing of nuclear weapons and associated equipment in the Province, the construction of nuclear weapons and associated equipment, the transport of nuclear weapons and associated equipment through and within the Province, and the export of goods and materials for use in the construction and deployment of nuclear arms. In addition, the Province should encourage cities, provinces and states throughout the world to initiate similar action.

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:
 7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as

soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.

12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to indi-

viduals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing

education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.

19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil aircraft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.
21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarter-

backs who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.

25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of providing large-scale productive employment opportunities for “handicapped” workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.
 28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
 31. *Mr. Cousens*—Resolution—That, in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
 32. *Mr. Conway*—Resolution—That, in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counseling.

PRIVATE MEMBERS' MOTIONS

1. *Debated November 24th, 1983.*

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.

7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".

8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.

9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Free-*

doms be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

s. 17,
amended 1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:

Proceedings
of Ontario
legislature (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.

s. 19,
amended 2. Section 19 of the said Charter is amended by adding thereto the following subsection:

Proceedings
in Ontario
courts (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.

s. 20,
amended 3. Section 20 of the said Charter is amended by adding thereto the following subsection:

Communica-
tions
by public
with Ontario
institutions (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,

(a) there is a significant demand for communication with and services from the office in such language; or

(b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

Citation 4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
 31. *Mr. Cousens*—Resolution—That, in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
 32. *Mr. Conway*—Resolution—That, in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counseling.

MOTION FOR PRODUCTION OF PAPERS

1. *Mr. Eakins*—That, an order of the House do issue for the production of the August, 1983, report on the Feasibility of an Employee Buyout of White Farm Equipment Canada Ltd.
-

PRIVATE MEMBERS' MOTIONS

2. *Mr. Epp*—Resolution—That, this House authorizes that a Proclamation be issued by the Governor General under the Great Seal of Canada amending Section 7 of the *Canadian Charter of Rights and Freedoms* to read as follows:

7. Everyone has the right to life, liberty, security of the person and enjoyment of property and the right not be deprived thereof except in accordance with the principles of fundamental justice,

and urges that the Senate and House of Commons and the Legislative Assemblies of the other provinces do likewise.

5. *Mr. Swart*—Resolution—That, in the opinion of this House, the Government should amend the Conservation Authorities Act and the Planning Act so that flood plain mapping, including fill lines, will be considered a restricted land use and be subject to all provisions of the Planning Act. Specifically, the present authority of the Ministry of Natural Resources to designate the flood plain area by regulation should be withdrawn and, instead, flood plain mapping should be a recommendation only for inclusion in municipal official plans and/or zoning bylaws.
7. *Ms Bryden*—Resolution—That, in the opinion of this House the Government should establish a Select Committee of the Legislature to hold public hearings on the operation of the Family Law Reform Act, 1978 and to bring in recommendations for amendments to it in view of the fact that we have now had five years experience with the Act, and in view of recent court decisions which have raised doubts about the effectiveness of the legislation to achieve the objectives stated in the preamble to the Act—"it is necessary to recognize the equal position of spouses as individuals within marriage and to recognize marriage as a form of partnership".
8. *Mr. Kerrio*—Resolution—That, in the opinion of this House, the Minister of the Environment should build a pilot demonstration water filtration plant in the Municipality of Niagara for removing "new generation" toxic chemicals from drinking water taken from Lake Ontario. Understanding that dioxins were recently found in raw water feedstock for St. Catharines' treatment plant, and that the Niagara Municipality has had a standing request to the Ministry since 1981 for such a pilot plant, the Minister should move quickly to begin testing new removal technologies and report on their findings as soon as possible. Based on the findings, the Minister should install the proven chemical removal technologies in Ontario's water treatment facilities.
9. *Mr. Roy*—Resolution—That, as section 43 of the *Constitution Act, 1982*, provides that certain amendments under the Constitution of Canada that apply only to Ontario may be made by proclamation issued by the Governor General under the Great Seal of Canada as authorized by resolutions of the Senate, the House of Commons, and the Legislative Assembly of Ontario, this House hereby authorizes that the *Canadian Charter of Rights and Freedoms* be amended by proclamation of the Governor General under the Great Seal of Canada in the manner set out as follows:

- s. 17,
amended
1. Section 17 of the *Canadian Charter of Rights and Freedoms* is amended by adding thereto the following subsection:
- Proceedings
of Ontario
legislature
- (3) Everyone has the right to use English or French in any debates or other proceedings of the legislature of Ontario.
- s. 19,
amended
2. Section 19 of the said Charter is amended by adding thereto the following subsection:
- Proceedings
in Ontario
courts
- (3) Either English or French may be used by any person in, or in any pleading in a process issuing from, any court of Ontario that is designated by the Lieutenant Governor of Ontario as a bilingual court.
- s. 20,
amended
3. Section 20 of the said Charter is amended by adding thereto the following subsection:
- Communica-
tions
by public
with Ontario
institutions
- (3) Any member of the public in Ontario has the right to communicate with, and to receive available services from, any office of an institution of the legislature or government of Ontario in English or French where,
- (a) there is a significant demand for communication with and services from the office in such language; or
- (b) due to the nature of the office, it is reasonable that communications with and services from that office be available in both English and French.

4. The amendments contained in this Schedule may be cited as the *Constitution Amendment Act (Ontario), 1983*.

Titre

4. Titre abrégé des modifications contenues dans la présente annexe: *Loi modifiant la loi constitutionnelle (Ontario) de 1983.*

11. *Mr. Kolyn*—Resolution—That, in recognition of the significant contribution that automatic traffic monitoring devices can make to the safety, efficiency, and convenience of vehicular travel in Ontario and acknowledging the increasing importance of microelectronics technology to the provincial economy, this House recommends the undertaking of a feasibility study of electronic accident prevention systems by the Ministry of Transportation and Communications with input from the Ministry of Industry and Trade, B.I.L.D., the IDEA Corporation and interested private sector parties in the field of electronic monitoring. The study should focus on the technical, economic, social and legal aspects of electronic accident prevention systems; it should determine the probable public and private social savings as a result of increased safety and efficiency of vehicular travel, the feasibility of creating an indigenous provincial manufacturing industry producing automated traffic monitoring systems and an estimate of the projected new employment that would result.
12. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government of Ontario should establish a program to provide compensation to individuals who have been charged with an offence under the laws of Canada or Ontario and who are subsequently discharged or found not guilty whether at a preliminary hearing, at trial or on appeal and who, as a result of the charge and related legal proceedings, have incurred substantial legal costs or suffered substantial loss of reputation or economic losses. The program should be administered by the Criminal Injuries Compensation Board or a similar Board. The administering Board should be given the discretion to decide whether any compensation should be awarded, having regard to all of the circumstances. And, that, this House also recommends that the Government

of Ontario should request that the Government of Canada amend the laws of Canada to provide for contributions by the Government of Canada to any fund established for the purposes of the program and provide statutory authority under the *Criminal Code* (Canada) to permit a court at a preliminary hearing, at trial or on appeal, to recommend whether or not the case is an appropriate case for referral to the administering Board and the Government of Ontario should introduce similar amendments to the laws of Ontario.

14. *Mr. Philip*—Resolution—That, this House condemn the actions of the Federal Government in providing nuclear information to the country of Argentina that can be used to manufacture nuclear weapons; that it further condemn the insane action of Argentina of providing such information to the highly unstable country of Libya.
17. *Mr. Di Santo*—Resolution—(1) That, in the opinion of this House, the Government should undertake immediate steps to give direct assistance under OHIP for pensioners in the purchase of eyeglasses, dentures, hearing aids and other prosthetic devices that would provide relief from discomfort. This is needed to help pensioners overcome the drastic inflationary costs which are not being met by the present allowance of indexing of pensions. Direct assistance is needed, rather than the uncertain or undignified recourse to “begging” from municipal agencies. (2) And, That, the Government should immediately undertake steps for the total elimination of any extra charges which create hardship, especially to seniors, whether for extra billing for doctors’ user fees, ambulance, necessary prescribed drugs or by any other method which would intrude on the universality of the system. (3) And, That, the Government, being directly involved in the funding of the operations of the public transit systems in the Province of Ontario, should make part of the deal the provision that the public transit system provide monthly passes at substantially reduced rates, to senior citizens uniformly and disabled people who have more pressing needs to use public transit for their daily needs. (4) And, That, the Government should encourage the enjoyment of leisure time by senior citizens by funding senior citizen centres with adequate operational grants and adjust the \$15,000 maximum maintenance grants in the Elderly Persons Centres’ Act to an equivalent of its 1975 value and that it be indexed annually. (5) And, That, grants to aid senior citizens to bear the cost of heating their houses should be increased to take into account the increased cost of fuels. (6) And, That, the \$50 sales tax rebate, property tax credits and credits for rental accommodation for senior citizens should be indexed since they have not been reviewed since 1980 when they were introduced, despite the increased cost of living intervened in the meantime. (7) And, That, the Government should introduce legislation aimed at removing education tax from property tax for senior citizens and disabled persons as a first step towards the elimination of education tax from property tax for all homeowners.
19. *Mr. Ruprecht*—Resolution—That, as a result of the attack on the Korean Airlines passenger plane on August 31st by Soviet military aircraft which resulted directly in the loss of 269 lives including ten Canadians, this House condemns the Soviet Union as follows:—That, this utterly unjustifiable resort to the use of weapons of war in the interception of defenceless civil air-

craft contravenes universally held standards of civilized international behaviour and international law governing civil aviation; That, the Soviet Government has provided neither a credible explanation of the circumstances nor any full acknowledgement of responsibility, appears unrepentant and unwilling to co-operate in international efforts to prevent a repetition of this tragedy; and That, this House expresses its profound sympathy to the bereaved families of the victims, condemns the unwarranted attack on the destruction of the Korean airliner on the orders of Soviet authorities, demands a full and truthful explanation of this brutal act from the Soviet Government, demands that the Soviet Government co-operate fully in any impartial investigation under the auspices of the United Nations and of the International Civil Aviation Organization to prevent any repetition of such a tragedy, demands that the Soviet authorities immediately offer full and generous compensation to the families of all victims including Canadians, and directs the Speaker to convey the text of this motion to the Chairman of the Presidium of the U.S.S.R. Supreme Court.

21. *Mr. Gillies*—Resolution—That, in the opinion of this House, the Government of Canada should strongly condemn the persecution of the Baha'i community in Iran, including the reported execution of one hundred and fifty-six followers of the Baha'i faith in that country; and that the Government of Canada should further protest the current detention of two hundred and fifty Baha'i people without charge in Iranian jails.
22. *Mr. Wrye*—Resolution—(1) That, this House urges the Government to establish a Select Committee of the Legislature to report on issues affecting disabled persons and their families. (2) And, That, the Select Committee review the impact of existing Legislation on employment, education, housing, accessibility, transportation, benefits, health care, recreation. (3) And, That, this Select Committee produce an interim report on recommendations for immediate legislative action within ninety days. (4) And, That, a final report be tabled in the Legislature within nine months of the establishment of the Select Committee.
23. *Mr. Kennedy*—Resolution—That, the Government of Ontario should seek to amend the *Compensation for Victims of Crime Act* to ensure that the full cost of the care required by disabled victims of crime, insofar as it is not covered by personal insurance and by other government programs, is met from public funds.
24. *Mr. Van Horne*—Resolution—That, the Minister of Labour should appoint a board of inquiry to consider the obstacles and difficulties faced by Canadian football players seeking positions on C.F.L. teams and by Canadian quarterbacks who seek positions on C.F.L. teams, the role played by the C.F.L.'s designated import rule in this situation, and possible solutions to the problem.
25. *Mr. Johnston* (Scarborough West)—Resolution—That, in the opinion of this House, a public inquiry should be conducted into the current operation of sheltered workshops in the Province with special emphasis on the working conditions, levels of pay and effectiveness of occupational therapy programmes and with instructions to investigate crown corporations as a means of

providing large-scale productive employment opportunities for "handicapped" workers at decent wages and with the full protection of the *Ontario Labour Code*, the *Employment Standards Act* and the *Occupational Health and Safety Act*. The investigators should report their recommendations to the Standing Committee on Social Development.

28. *Mr. Kennedy*—Resolution—That, in the opinion of this House, the Government should take immediate action to double the maximum awards that may be made by the Criminal Injuries Compensation Board.
 29. *Mr. Ruston*—Resolution—That, in the opinion of this House, the Government through the Ministry of Agriculture and Food should immediately allocate sufficient resources to meet all the needs of Ontario farmers for tile drainage loans and that the maximum loan assistance be increased to cover 75 per cent of the cost of the drainage work as provided for by the legislation.
 30. *Mr. Philip*—Resolution—That, in the opinion of this House, the Minister of Health in consultation with O.H.I.P. should make whatever regulatory changes are necessary to ensure that a fee for acupuncture ordered by a medical practitioner be incorporated as an insured service.
 31. *Mr. Cousens*—Resolution—That, in the opinion of this House, the Government, recognizing that the prosperity and job creation capability of the Ontario economy are directly linked to the Province's competitive position in the international marketplace and the corresponding performance of Ontario's export trade sector, should therefore further attempt to coordinate and consolidate existing and disparate Ministry export programs, product promotion initiatives and technology-improvement efforts under a comprehensive, unified and progressive export development strategy.
 32. *Mr. Conway*—Resolution—That, in recognition of the crisis in job opportunities for Ontario youth, as evidenced by average youth unemployment of 197,000 or 17.7% over the past 22 months, and given the inadequacies of current provincial government policy, this House endorses the Ontario Liberal Party program for youth employment and skills development as announced by the Leader of the Opposition on October 26th, 1983, which program provides for an open enrolment of all young Ontarians between the ages of 18 and 24 who have been unemployed for at least 20 weeks and would give special emphasis to educational upgrading and career counselling.
 33. *Mr. Philip*—Resolution—That, this House express empathy with the following Polish immigrants participating in a hunger strike in order to have their wives and children rejoin them in Canada, and urge the Government of Canada to take every possible action to express to the Polish Government the need to release the wives and children so that the families can be reunited: Jerzy Smierczalski, Stefan Przybylski, Mirosław Modzelik, Jerzy Guzek, Jan Jakubowski, Mirosław Kozłowski, Ryszard Rejer, Andrzej Szczerba, Władysław Rzeszowski, and Jan Ostoja Starzewski.
